## Congratulations to Hon'ble MD Sir !

Our Managing Director **Shri Pankaj Joshi, IAS** has been appointed as Director on the Board of Fertilizers Association of India (FAI) at their 65th Annual General Meeting (AGM) held on 28th September 2020.

FAI is a renowned association in the fertiliser industry in India and abroad. The prime objective of the association is to assist fertilizer industries in improving their operational efficiencies, problem solving, policy reformation, new/development initiatives, etc.

We extend our hearty congratulations to Hon'ble MD Sir and are sure the Association will surely benefit from his significant contribution".

## Education Division

is a strategic vertical of (n)Code Solutions – a division of GNFC Ltd., mainly focussed on Educational Institutions, Examination Boards and Recruitment Agencies. It provides technology by means of a unique IT-as-a-Service model, offering end-to-end business solutions. It caters to the needs of multiple industry segments, through innovative, easy-to-use, secured, integrated, hosted solutions in a build-as-you-grow, pay-as-you-use business model. (n)Code provides the following smart solutions:

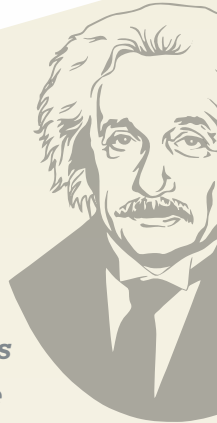

## Smart Exam Administration

A unique service for transparent, time bound and a secure recruitment process and a specialized service in Entrance Examination and Admissions Management for Universities.

This exclusive offering enables business organizations to optimize their recruitment related activities. On-campus, off-campus and lateral hiring recruitment support are provided to business organizations and recruitment boards for their to meet their hiring needs. Our service model eases the recruitment process - starting from content creation, event scheduling, test administration, result processing to interview co-ordination.

*Strive not to be a success  
but rather to be of value*

## From the CEO's Desk

This Pandemic times have been tough for all of us in different ways. This has also forced us to introspect the way we do business. This introspection has resulted in education and its evaluation system going digital and online. The positive process results of digitization is also being harnessed for recruitment activity. We at nCode solutions are proud to be part of such initiatives and successfully delivering results. Covid-19 is here to stay and hence do not lax but keep safe.

Signing off

## On Screen/Digital Marking

One of the key challenges faced by all educational institutions is ensuring fair, transparent, time bound evaluation of answer scripts. **Bringing innovations in technology to the evaluation system**, (n)Code Solution has put years of experience and its experts on creating a transparent, seamless and 24x7 accessible solution for 'On Screen/Digital Marking'. (n)Code's completely customizable solution as part of the 'On Screen/Digital Marking' solution covers 'Answer Script Digitization', 'Live Marking', 'Dashboards' and 'Result Compilation'.

### Pre-Evaluation Process

### Evaluation Process

# Online Examination with AI based Remote Proctoring

Our latest innovation in the field of Online Examination enables our Clients to conduct Online Examinations 'anywhere anytime' in the real sense. No need to rely on Examination Centers, and no need for the candidates to travel long distances to appear for an examination. Through Proctoring solution, our clients can now conduct the examination remotely and candidates can write the examination from anywhere.

Proctoring solution enables remote proctors to view the candidates in real time via live video, screenshot and audio feed, while the examination is in progress. The video and screen shots are saved on the servers for audit and playback at a later time. The Proctors have control over the candidate examination by pausing, continuing or ending the examination as and when required. The remote proctors can even view the exam screen in real time. A detailed report is available along with the activity logs to track the performance of individual candidates.

“In the current Digital Scenario, Online Examinations play a key role for process oriented work areas related to Admissions, Semester tests and also Recruitments. This saves time, money, paper and is more transparent and secure than the traditional manual process. The traditional manual process involved manpower, time and resources. The Education Vertical of (n)Code solutions - A Division of GNFC Ltd., is fast emerging as a trustworthy and key service provider for the Government Recruitment bodies, Universities, Educational Institutes and Private educational institutes too.”

## Joy of Giving & Diwali Celebration @(n)Code

*“We make a Living by what we get, but we make a life by what we give.”*

Diwali is the perfect time to illuminate lives around and this time, our colleagues took up the initiative 'Joy of Giving' to the villages of Poshina, Taluka, Sabarkantha. Around 18 villages were covered wherein they distributed old unused items, new blankets and sweets to the underprivileged with the generous contributions by (n)Code employees. At the work front, we had a get together for our employees and support staff both at GIFT and Infotower Offices that was enjoyed by one and all. Games and other fun activities were conducted and employees across verticals decorated their work stations and the entire office. Each employee carried the festive spirit in spreading joy and happiness around.

### Editor's Desk - Happy New Year 2021!

As we begin afresh, many of us may have already set goals for 2021. Some may be an extension of the learnings received during 2020. The Pandemic has shown us many innovative ways in enjoying life in a different way, bringing us closer to our families, unearthing solutions that one may have never known. May 2021 bring along positivity, hope and happiness for each of us. The Pandemic is still around, take necessary precautions, stay safe and remain positive.
